*** NOTE: Refer to FSIS Directive 5420.4 during heightened threat levels for further guidance.**

**** NOTE: If an import message instructs reinspection for a foreign country, product and/or plant at a level in excess of the above table, the rate of inspection in the import message shall be used instead of the rate in this table.**

***** NOTE: A Pink Juice Test must be performed on all Cooked Beef Products from Argentina and Brazil. Product from Uruguay that is not certified properly will also need a Pink Juice Test performed.**

****** NOTE: Eligibility of a country or establishment exporting to the US is subject to change daily. Import inspection personnel must verify that all products presented for reinspection during contingency is eligible. Any shipments that are questionable should be held until the IFO or headquarters office can be contacted.**
